

OBJECTIVE

Frontend-focused Full-Stack Developer with 1+ year of experience building scalable web applications using React.js, Next.js, and TypeScript. Seeking to leverage expertise in modern JavaScript frameworks and API integrations to deliver high-impact solutions.

SKILLS

**Frontend:** React.js, Next.js, React Native, TypeScript, JavaScript, HTML, CSS, Tailwind CSS.  
**Backend:** Node.js, Express.js, MongoDB, PostgreSQL, REST APIs.  
**Tools & Deployment:** Git, GitHub, Figma, Vercel, Netlify, AWS

EXPERIENCE

Bugraid.ai - Software Developer (Full-Stack Developer)

July 2025 - Present

- Revamped incident and RCA dashboards, reducing investigation time by ~25% through improved UI and data visibility
- Developed reusable UI components (forms, modals) and optimized backend microservices with Sentry monitoring, cutting bug resolution time by ~20%
- Integrated 6+ third-party platforms (Splunk, ServiceNow, Sentry) via webhooks for automated telemetry data ingestion

Alazka.ai - Front-End Developer

Sept 2024 - June 2025

- Delivered production e-commerce platform with real-time updates, Redux state management, and seamless API integrations
- Designed and developed 5+ client websites (SaaS, e-commerce), reducing delivery timelines by ~25%
- Migrated services from MongoDB to PostgreSQL; deployed applications across Vercel, Netlify, AWS Amplify, and Azure

Proven Robotics - React Developer Intern

July 2024 - Oct 2024

- Built features for the Bot Builder platform, enhancing workflow automation and node-based flow connections
- Collaborated with robotics engineers to improve UI/UX, increasing platform usability
- Optimized frontend performance through reusable React components and code refactoring

PROJECTS

Bloomi5 Store Builder - No-code Website Platform | Next.js, Tailwind CSS, MongoDB | [Live Link](#)

Drag-and-drop builder for creating e-commerce/service websites with dynamic schema generation. Supports 10+ pre-built templates, reducing build time by 40%.

Prompter - AI Prompt Sharing Platform | Next.js, MongoDB, Node.js | [Live Link](#)

Platform for sharing AI prompts with real-time chat, search, and user authentication. Optimized MongoDB queries, improving search performance by ~35%.

Healing Clay - E-commerce Store | React.js, Tailwind CSS, REST APIs | [Live Link](#)

Responsive e-commerce app with cart management, checkout, and payment gateway integration. Improved page load speed by 30% through optimization.

EDUCATION

B.Tech in Computer Science - Babu Banarasi Das University | CGPA: 8.25

2020 - 2024

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Development, Software Engineering

Certifications

React.js Development - Online Certification | 2024
